Definitions:

The subject for images entered in all sections must satisfy as given below:

Monochrome / Black & White

An image is considered to be monochrome only if it gives the impression of having no color (i.e. contains only shades of gray which can include pure black and pure white) OR it gives the impression of being grayscale image that has been toned in one color across the entire image. (For example by Sepia, red, gold etc.)
A grayscale or multicolored image modified or giving the impression of having been modified by partial is toning, multi toning or by the inclusion of spot coloring does not meet the definition of Monochrome and shall be classified as Color work.

A black and white image is one with tones from very dark grey (black) to very clear grey (white) A black and white image toned entirely in a single color will be able to stand in the black & white category and can be reproduced in black & white in the catalogue. On the other hand a black and white image modified by partial toning or by the addition of one color to a part of the image becomes a color image and should be entered in the color category. This type of image will be reproduced in the color pages of the catalogue

Color

The salon shall have color digital image Pictures on any subject including creative or experimental images can be submitted. Entries must originate as photographs (image-capture of objects via light sensitivity) made by the entrant digitally.
The exhibition assumes no liability for any misuse of copy-right. Images may be altered, either electronically or otherwise, by the maker and artwork or computer graphics created by the entrant may be incorporated if the photographic content predominates. Creative is defined as "altered reality".

Nature

- Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation.
- The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.
- Human elements shall not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.
- Scientific bands, scientific tags or radio collars on wild animals are permissible.
- Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.
- No techniques that add, relocate, replace, or remove elements except by cropping are permitted.
- Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning.
- Techniques that remove elements added by the camera, such as dust spots, digital noise, and film scratches, are allowed.
- Stitched images are not permitted.
- All allowed adjustments must appear natural.
- Color images can be converted to grayscale monochrome.
- Infrared images, either direct-captures or derivations, are not allowed.

Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

Photo Travel

A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographic limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired
for photography are not appropriate. Close up pictures of people or objects must include features that provide information about the environment. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene,
And complete conversion to grayscale monochrome. Other derivations, including infrared, are not permitted. All allowed adjustments must appear natural.

Photo Journalism

Photojournalism entries shall consist of images with informative content and emotional impact, reflecting the human presence in our world. The journalistic (story-telling) value of the image shall receive priority over pictorial quality. In the interest of credibility, images that misrepresent the truth, such as those from events or activities specifically arranged for photography or of subjects directed or hired for photography, are not eligible.
Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable modifications are removal of dust, scratches or digital noise, restoration of the existing appearance of the original scene, sharpening that is not obvious, and conversion to grayscale monochrome. Derivations, including infrared, are not eligible.
